

The nation's largest
independent fleet fuel provider

Impac is DBE Certified in Texas!

The Disadvantaged Business Enterprise (DBE) certification is a federal program administered by the Department of Transportation for construction projects involving state and local governments, public transit, and airport agencies. DOT contracts and Public Works RFPs dictate that a percentage of the contract value must be spent on DBE certified vendors/contractors.

Impac is the only fleet fuel & bulk fuel provider that is DBE Certified!

DOT and Public Works RFPs require you to spend a percentage of contract value (typically 5%-20%) utilizing minority businesses. Impac's DBE certification allows contractors to meet those minority requirements for DOT and Public Works contracts without hiring sub-contractors.

Meet your DOT minority requirements with money you spend anyway!

It's difficult to find a sub-contractor that is skilled as well as certified for DOT minority requirements. Now, you can address minority percentage requirements with the fuel you purchase to run equipment and vehicles.

Simply use Impac Fleet Fuel or Bulk Fuel Services to fuel equipment or vehicles for contracts and meet or exceed your DBE percentage requirements without outside hiring.

Impac Universal Fleet & Bulk Fuel Services

Manage fuel and maintenance expenses for commercial and government fleets of all sizes. Improve purchasing strategies and streamline expense reporting with Impac's Universal Fuel Card and online management tools.

Impac's Fleet card is accepted at 98% of fueling stations nationwide, more than 240,000 locations in all fifty states, including all Major Oil Refiner sites plus well known retailers like Wal-Mart, Kroger, Sheetz, SuperAmerica, Pantry, Pilot, Flying J, QuikTrip. By allowing drivers to fuel at competitive pricing, Impac delivers cost savings not typically found in other fleet card programs.

Impac's Online Portal is the industry's most robust, secure, user-friendly fleet management program providing state-of-the-art account, payment and spend-control capabilities. Fleet managers can customize controls to observe, update, track and manage fleet operations and fleet card accounts. Monitor purchases, access detailed reports and control fleet cards by driver, vehicle or region.

Members of National Purchasing Partners (NPP) receive exclusive discounts on Impac Universal Fuel Services.
