

When you can manage your account from anywhere, your life gets simpler.

My Verizon for Business app

There's an app for everything. Managing your wireless business lines with Verizon is no exception. My Verizon for Business app can help you stay on top of your account. This mobile app gives you the powerful simplicity you need to get things done quickly on the go.

Cost control at your fingertips:

- View and pay bill.
- View usage.

Service management in your pocket:

- Suspend or resume service.
- Change voicemail password.
- Change data allowance.

The big picture, just a smaller screen:

- View upgrade eligibility, plan and features.
- View order status.
- View transaction history.

Easy access to a simple interface:

- Sign in with your My Business credentials.
- Register in the app, if a new user.

My Verizon for Business app is frequently updated as we add new features and enhancements for an interactive and dynamic customer experience.

With more business being done on the road, we look for flexible ways to help you manage all your business through your mobile device.

Start exploring what you can do while on the go and download My Verizon for Business app from Google Play™ or the App Store today.
