

# No more paper forms.

Convert all your paper forms with Canvas™ Apps  
and Verizon Wireless.

**Data collection happens in real time; why wait for your teams to come into the office and fill out forms?**

## **How does Canvas work?**

It takes paper forms and makes them mobile. No more waiting for the field to come back to the office – your employees can send you their updates in real time over the Verizon Wireless LTE Advanced Network.

## **What can Canvas do for your business?**

- Build a new form for you - the first one is free
- You can search from over 18,000 existing forms on our website and find the one you need.
- Use our Apps Builder and create your own form

## **Using Canvas can save your business because:**

- Information available in real time so business decisions can be made on-demand
- Gain efficiencies and increase productivity by reducing paperwork from field staff
- Collect data, with date and time stamps, such as photos, signatures and GPS capture to limit liability
- Companies have realized significant cost savings on supply costs, compliance/regulatory filings and more

**To learn more, please contact your Verizon Wireless representative.**
