

Uncover your fleet's true potential

Fleet Management Software

A web-based fleet management solution built on a scalable platform designed to integrate with your entire business, from logistics and maintenance through to payroll and dispatch.

Safe drivers save more than lives

Effective fleet safety is good for you, your drivers and other people on the road. Telogis Fleet gives you the tools to run a safer fleet as safety becomes an integral part of your day-to-day operations.

InSight Alerts®

Get instant notifications about key events, such as unauthorized vehicle activity, airbag deployment or speeding.

Safety KPI dashboard

Review performance against safety benchmarks and chart progress by division or across the entire fleet.

See what's working and what isn't

You never really know how well your fleet is performing without the detailed insight Telogis Fleet can give you. As part of the Telogis connected intelligence platform, you'll see a real-time view of your fleet operations – all your moving assets on a single screen.

Automated reporting

Reports such as mileage by road type can be emailed directly to the finance team for IFTA and fuel tax returns.

What's happening now?

See all your assets on a single map. Patented cluster technology provides a quick status overview.

Look after your assets

Downtime is costly and can seriously disrupt your operations and disappoint customers. Telogis Fleet alerts you to schedule needed maintenance, even integrating with your local dealer to manage it automatically.

Maintenance alerts

Reduce vehicle downtime by scheduling reminders and getting automatic alerts when service is due.

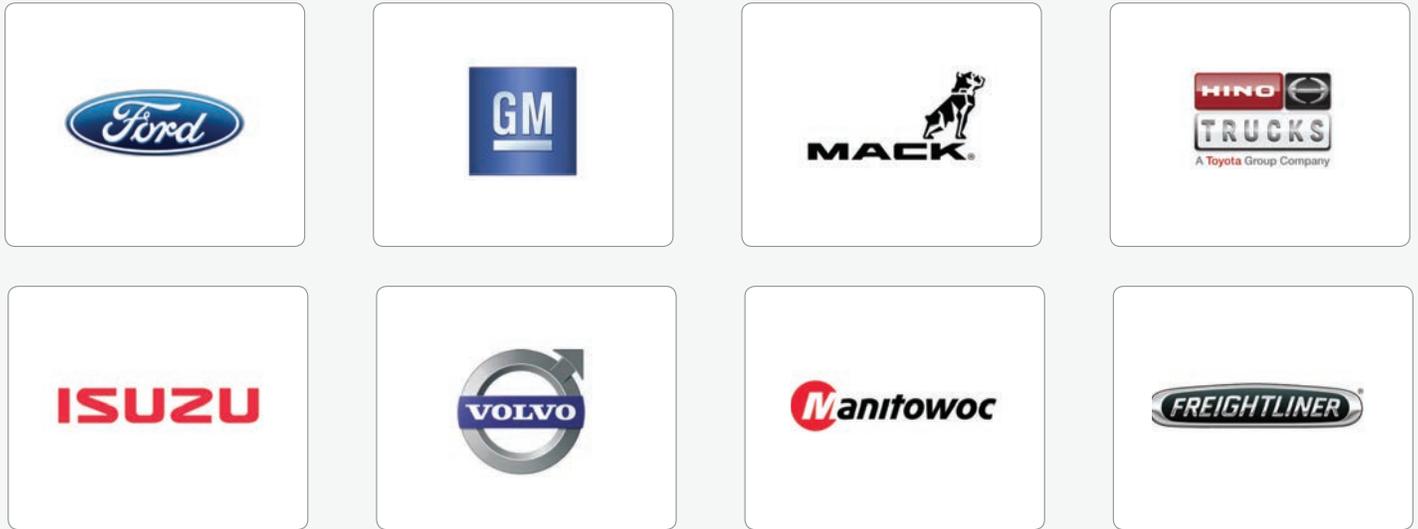

Rich vehicle data

OEM partnerships bring you rich data on the current health of your assets – exclusive to Telogis.

Built in. Ready to go from day one.

Telogis is available as a built-in solution from some of the world's leading vehicle and equipment manufacturers including Ford, GM, Volvo, Mack, Hino, Isuzu and Manitowoc Cranes. A built-in telematics solution gives you richer diagnostic data, no installation downtime, capitalization tax benefits as well as warranty options backed by an extensive dealer network.

Get the job done

Validate your team's productivity with a verified record of service including details such as start times, job completion and driving time – even when and where your supervisors are supervising.

The screenshot displays the Telogis software interface. The main view shows a 'Drivers' table with columns for Driver Name, Status, Duration, and Time. A sidebar on the left contains navigation options like HOME, DASHBOARD, MAP, VEHICLES, DRIVERS, FLEETS & TEAMS, MAP MARKERS, INSIGHT ALERTS, HOURS OF SERVICE, DASHBOARDS, REPORTS, TASKS, and HELP. A detailed view for driver 'Jamie Doel' is shown on the right, including a 'Today's History' section with a list of activities such as Unloading, Pouring, Dead head, Driving, Clean truck, and Driving #COS.

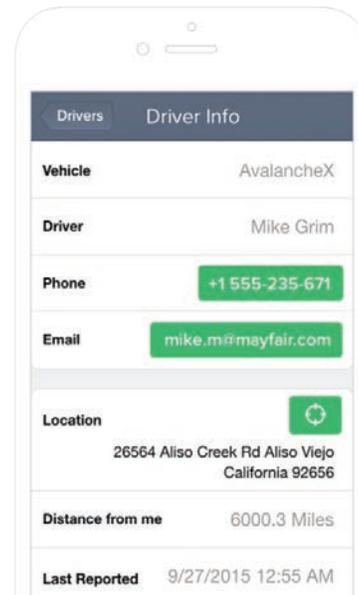

DRIVERS	STATUS	DURATION	TIME
John Doel	Cleaning	15 min	5:15 PM
David Hawkins	Loading	25 min	5:15 PM
Jamie Doel	Cleaning	45 min	5:15 PM
Alan Lucas	Dead head	45 min	5:15 PM
Adam Lloyd	Concrete on	55 min	4:25 PM
Wade Dunn	Clean truck	23 min	4:25 PM
Hugh Walls	Ready to load	15 min	4:25 PM
Tyrone Horton	To job	25 min	4:30 PM
Ted James	Plant labor	45 min	2:30 PM
Ramiro Castro	Cleaning	45 min	2:30 PM
Jerome Perkins	Loading	55 min	2:30 PM
Danuel Harser	Pouring	23 min	2:30 PM
Dominic Romano	Dead head	15 min	2:30 PM
Ken Schmidt	Concrete on	25 min	2:30 PM
Carroll Osborne	Clean truck	45 min	2:30 PM
Fred Patrick	Ready to load	45 min	2:30 PM
Zachary Blair	To job	55 min	6:30 AM

STATUS	DURATION
Unloading	30 min
Pouring	45 min
Dead head	45 min
Driving	55 min
Clean truck	23 min
Driving #COS	15 min
To job	25 min
Plant labor	45 min

STATUS	DURATION
Unloading	25 min

If something goes missing, you'll know about it

Monitor high-value assets around-the-clock and take swift action to recover stolen assets or manage unauthorized use of vehicles. Driver ID technology helps your team take responsibility for company assets and the whereabouts of people on your teams. Insurance claims and asset recovery are easy with a simple history look-up to show exactly what happened where.

Ready to grow when you are

Telogis Fleet is built on a highly scalable, secure platform that you can build your mobile business around. It uses open, commonly used web APIs to integrate with your existing software systems.
