

More than \$5 Billion available via Class Action Settlements

NEXT DEADLINE
Jan. 18, 2019

There are currently several class action settlements (a few are highlighted below) spanning a few categories from which your organization may be eligible to recover significant proceeds. NPP members can take advantage of a Class Action Settlement Recovery Service, on a pure contingent fee basis, through our strategic partner, Managed Care Advisory Group, LLC (MCAG).

SETTLEMENT RECOVERY SERVICE (SRS)

MCAG's SRS delivers the most on class action claims with the least amount of effort. They represent thousands of businesses and healthcare organizations, from sole proprietors to Fortune 500 companies, and have distributed hundreds of millions of dollars to their clients. One thing that sets MCAG apart is their ability to leverage their exclusive database to pull together required claim data – even when limited information is supplied by clients.

MCAG's settlement experts continually search for class actions for which you may be eligible. You do not have to spend time looking for applicable class actions or examining settlement documentation. Once you enroll in MCAG's service, they will notify you of the opportunity, determine your eligibility and submit claims on your behalf. There may be certain occasions that require the submission of limited additional information to MCAG, but the process will be as convenient as possible.
