

# Reflective Roof Coatings for Agricultural Performance

Uniflex® Premium Elastomeric White Finish Coat is formulated using a 100% acrylic polymer that provides outstanding weathering and superior reflectivity properties.

Resists cracking and peeling and provides excellent waterproofing capabilities.

- ✓ Bright white finish reduces surface temperatures, thereby minimizing thermal expansion and contraction.
- ✓ Under-the-roof temperatures are reduced, lowering cooling costs that aid in livestock comfort
- ✓ Custom colors available; see Elastomeric Tint Base Data, page 41-30D, for more information.

# Aluminum Roof Coatings for Agricultural Performance

Uniflex® Premium Aluminum Finish Coat is a premium grade fibered aluminum reflective coating manufactured from the finest aluminum leafing pigments, quality refined asphalt, reinforcing fibers and petroleum distillates.

The aluminum pigment exceeds Federal Specification TT-P-320D, Type II. Uniflex Premium Aluminum also meets performance standards as set forth in Federal Specifications TT-C-498C.

Uniflex® Wet-Dry Roof Cement is a single component, asbestos free, asphalt-based cement designed for roof application. Uniflex Wet-Dry Roof Cement is especially suited for asphaltic based roofing substrates. Seals quickly, will not pull apart or lose its bond, remains soft and pliable, and resists temperature change. Can be applied to wet or dry surfaces, even underwater. (KST058600-16)
